# WHAT GOES INTO A CORGI 2

To show you just what makes Corgi cars so special we took this one apart!

Easier said than done because Corgi put every vehicle together very well.

They're designed to stay in one piece, through years and years of hard play.

Attention to detail is masterly, look at that engine, the two piece bonnet, even a handbrake.

Still, when you assemble 27 separate parts it takes to create this MG TF, you expect a high degree of realism.

That's what Corgi strive for across its entire range of over 180 vehicles, from the smallest car to the largest trucks.

Pour montrer ce qui est vraiment différent dans une Corgi, nous en avons démonté une.

C'est plus facile à dire qu'à faire car l'assemblage est très solide.

Une Corgi est conçue pour durer des années même en cas de jeu brusque.

L'attention apportée aux détails est très importante.

Voyez ce moteur, ce capot en 2 pièces et même le frein à main.

Les 27 pièces différentes qui composent cette MG TF respectent ce souci d'authenticité.

Corgi l'atteind à travers sa gamme de plus de 180 modèles de la plus petite voiture au camion le plus imposant.

Um darstellen zu können, was so besonders an den Corgi-Autominiaturen ist, haben wir dieses Modell zerlegt.

Doch das ist leichter gesagt als getan, denn wir bei Corgi fügen schließlich alle Fahrzeuge sehr fest zusammen.

Sie sollen nicht in Stücke zerfallen, sondern viele Spieljahre stabil überstehen.

Die Detailtreue ist meisterlich – man sieht es am Motor, an der zweiteiligen Motorhaube, sogar an der Handbremse.

Und wenn die 27 Teile, aus denen dieser MG TF besteht, zusammengebaut sind, dann muß das Fahrzeug auch im ganzen große Modelltreue aufweisen.

Dies gilt bei Corgi für das ganze Sortiment von über 180 Fahrzeugminiaturen – vom kleinsten PKW bis zum großen Lastwagen.

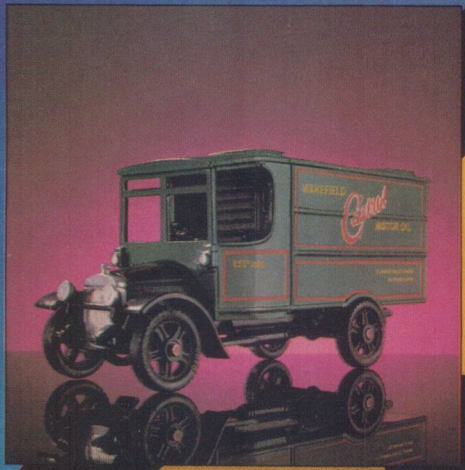
# A1 Classics



A range worthy of special mention, 20 superb classic vehicles.

Those were the days, and Corgi have shown the care and enthusiasm of the original designers. Now Corgi have delved deeper into history to replicate two milestones in truck design. The 1929 Thornycroft Van and the Renault Van of 1926. Both made to the exacting standards the Classic collection is famous for, meticulous attention to detail.

Classics, the very best of Corgi, and of motoring history.

Une gamme qui mérite une mention spéciale : 20 superbes modèles classiques qui traduisent le soin et l'enthousiasme des créateurs. Corgi approfondit la démarche avec ces deux événements de l'histoire du camion que sont le Thorneycroft et le Renault. Ils sont tous les deux conformes à la tradition de cette gamme avec un soin particulier apporté aux détails.

La Série Classique : Le meilleur de Corgi pour le meilleur de l'histoire automobile.

Diese Serie ist es wert, besonders beschrieben zu werden: 20 überragende "Old – timer" aus früheren Zeiten. Corgi verstand es, die Sorgfalt und Begeisterung der Erbauer der Originale in die Miniatur zu bauen. Jetzt ist Corgi noch weiter zurückgegangen und bringt zwei Meilensteine der LKW – Geschichte in Miniatur. Den Thorneycroft und den Renault, beide modellgetreu und dem bewährten Finish der Corgi Oldies – Reihe entsprechend gebaut – mit echter Liebe zum Detail.

Classics – das beste von Corgi und in der Geschichte des Automobils.
